  - Mechanical Assembly

RAM is a single-source manufacturer and can offer our customers complete, precision metal fabrication services, from concept to finished product.

We take pride in maintaining the highest standard of quality, service, and competitive pricing.

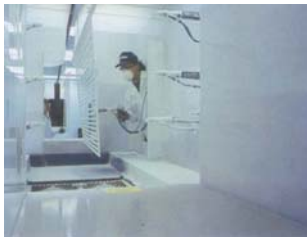

## Custom Metal Fabrication

## Powder Coated Painting

RAM's 700ft automated powder-coating paint line is equipped with a five-stage pretreatment washer system, dryoff and curing oven, and a temperature controlled clean room equipped with a Nordson 400 Series self-contained powder spray recovery system for manual or automatic spraying. It is also equipped with quick change color modules.
